

SCIENCEWISE LIST OF EVALUATORS

Introduction

Every public dialogue project co-funded by Sciencewise is required to have an independent evaluation. Around 10% of each project budget is allocated to this. These evaluations are usually contracted and managed by the body commissioning the public dialogue project overall; commissioning bodies are government departments or other public bodies.

For some years, these bodies have been asking Sciencewise for guidance on contractors that could be invited to tender for these evaluations. This list is designed to provide that guidance. It is now being published as other bodies have also asked permission to use the list; each evaluator listed has confirmed that they are willing to have their details published.

The list has been compiled through Sciencewise experience and knowledge, and through advertising the opportunity to join the list in the Sciencewise newsletter and on the Sciencewise website, to make the process as open, inclusive and transparent as possible. The list is updated on a regular basis.

Status of the list

There are relatively few experienced and knowledgeable evaluators of the highly specialised area of work that is public dialogue and SBS UK has confirmed that this list can be used alongside formal framework agreements, or where there are no relevant framework agreements at all. SBS UK manages all procurement for the Sciencewise parent department (BIS), and for some other Government bodies, and have used the list themselves.

Using the list

All, some or none of those on the Sciencewise list may be invited to tender for an evaluation of a project funded by Sciencewise. Other contractors, not on the Sciencewise list, may also be invited to tender - the list can be used alongside other networks and individual contacts.

Inclusion on the list is open to all who meet three basic criteria, and all those on the list have met these criteria:

- **Relevant** experience of evaluating national public and/or stakeholder dialogue, or other participatory activities (i.e. completed evaluations with published reports)
- Willingness to be invited to tender for public dialogue evaluations
- Willingness to be included on the list and to provide the basic information required.

Inclusion on the list does NOT imply recommendation by Sciencewise, does not guarantee evaluation contracts or invitations to tender for the evaluators listed, and does not mean that there are not other, equally qualified and experienced, evaluators available.

PLEASE NOTE: Evaluators were asked to give only three examples of completed evaluation projects. They often have significantly more, and more varied, experience than is shown below.

Contact details (alphabetical order)	Examples of relevant evaluation experience
<p>Rhuari Bennett, Director, 3KQ 93 Serpentine Road, Kendal, Cumbria LA9 4PD Tel: 01539 739 435 (direct line); 01892 506909 (main office)</p> <p>Email: rhuari@3kq.co.uk</p> <p>www.3kq.co.uk</p>	<ol style="list-style-type: none"> 1.
